User Stories

As a user I want camera accessibility so that I can create my own puzzles and send puzzles to my friends.

As a user I want a gallery of pictures so that I can solve per-existing puzzles.

As a user I want a record of my highest score so that I can beat it.

As a user I want device independence in terms of screen size so that I can play on different android devices.

As a user I want some way to navigate so that I can go to the previous screen.

As a user I want difficulty options so that I can choose my own grid size.

As a user I want an option to play again so that I can multiple games in one session.
